“We make a living by what we get, but we make a life by what we give” is a wise thought holding on to the life of Dr. Sweta Khandwala which gave rise to social movement called Joy of Giving. Under this a handful of faculties and students have sworn to educate unfortunate children who are kept from the luxury of knowledge.
A noble start was taken by Silver Oak College of Engineering & Technology under the guidance of Dr. Sweta Khandwala to make the society around us more joyous and educated. This initiative took a blissful jump on 6th February, 15 when 4th Computer B-division students came forward to donate 100 plus variety of things that included 35 plus clothes and 45 plus stationary products from this single class.
Well begun is half done. This is the beginning and "Joy of Giving" is hopeful for such huge response ahead.

“We rise by lifting others.”
All faculties and students have participated in the event enthusiastically and made it a grand success.
