

SILVER OAK COLLEGE OF ENGINEERING & TECHNOLOGY DEPARTMENT OF CIVIL ENGINEERING

A/P Rewati S. Marathe of Civil Engineering Department attended two days workshop on Pavement Geotechnics for Urban Infrastructure (PGUI-2018) at Institute of Infrastructure Technology Research and Management (IITRAM), Ahmedabad

Date : 19th – 20th APRIL, 2018
Days : 2 days
Venue : IITRAM Ahmedabad

Workshop Theme:

The workshop focused on Pavement design, construction and maintenance, recent advances in materials for Pavement as well as Geotechnical aspects of Pavement for Urban Infrastructure development. The various themes for the workshop includes:

- Pavement Design: Methodology adopted / Code of Practice
- Pavement Maintenance: Methodology / Code of practice for flexible pavement, pavement evaluation, overlay, widening and retrofitting
- Recent advances in Pavement materials: For new and existing pavements
- Ground improvement and Geosynthetic applications for Pavement
- Focus on practical aspects of sub-grade, pavement design, construction and maintenance in Urban areas
